School of Computer Applications
Department of Master of Computer Applications

University Examination Summer – 2024

Semester – II

Practical Exam

Sub Code: 140110201 **Name: Data Structures**

Total Marks: 50 (including VIVA)

SET-1

A	Write a menu driven program to implement following operations of Stack using Linked List. a) Push b) Pop c) Peek d) Display	15
B	Write a menu driven program to perform following operations in simple queue using static data structure. Also display the updated value of Front and Rear in every operation. a) Insert b) Delete c) Display	15
C	Write a program to sort an elements using Quick sort algorithm.	10

University Examination Summer – 2024
Semester – II

Sub Code: 140110201 **Name: Data Structures**

Total Marks: 50 (including VIVA)

SET-2

A	Write a menu driven program to perform following operations in circular queue using static data structure. Also display the updated value of Front and Rear in every operation. a) Insert b) Delete c) Display d) Exit	15
B	Write a menu driven program using singly linked list to perform following operations a) Create b) Display c) Insert- At specified location d) Delete - Last	15
C	Write a program to reverse a given number using Stack.	10

University Examination Summer – 2024
Semester – II

Sub Code: 140110201 **Name: Data Structures**

Total Marks: 50 (including VIVA)

SET-3

A	Write a menu driven program using doubly linked list to perform following operations a) Create b) Display c) Insert- At specified location d) Delete - Last	15
B	Write a menu driven program to perform following operations in stack using static data structure. Display the value of Top in every operation. a) Push b) Pop c) Peek d) Display	15
C	Write a program to sort an elements using Shell sort algorithm.	10

University Examination Summer – 2024
Semester – II

Sub Code: 140110201 **Name: Data Structures**

Total Marks: 50 (including VIVA)

SET-4

A	Write a menu driven program using circular linked list to perform following operations a) Create b) Display c) Insert - First d) Delete - Last	15
B	Write a menu driven program to perform following operations for an array a) Print b) Insert at a specific position c) Delete at a specific position	15
C	Write a program to implement Binary Search algorithm.	10
